

November 10, 2020

"Dad, is the election done yet? Or is it still happening?", my 10-year old son said last weekend.

The nonstop political updates can be overwhelming.

Here's the good news: no matter how it all shakes out, over time, the power of American innovation and progress (reflected by the value of U.S. businesses: the stock market) increases significantly. Check out that chart above. As I stated last time, don't make major investment decisions based on who is in the White House.

The best way to hedge against uncertainty (election, COVID, or whatever is next) is to have a comprehensive financial plan that is goals-based, focused on the long term, and offers your family protection against the unexpected.

Focus on what is within your influence and don't guess and wait for external circumstances to determine your next steps. Uncertainty and risk will always exist. Your security, peace of mind, and confidence in your future depends largely on your own preparation.

We are here to help you. Unlike politicians, our team is stacked with Certified Financial Fiduciaries®, legally obligated to put your best interests first at all times. Click the blue button below and schedule a time to talk about your own financial goals and decisions.

P.S. Entrepreneur Magazine just published an article called "[8 Books to Help You Find Financial Bliss](#)" and they highlighted MY BOOK (third on their list) in the article! Pretty cool surprise.

P.P.S. Thank you again for your support in buying my new book "[Stress Free Money](#)" (available on Amazon). 77 of you have already left a book review on Amazon. THANK YOU!!

Sincerely,

Certified Financial Fiduciary®
