🕒 It's HALFTIME! 🕒

Today begins the 2nd half of 2020! I bet it's been different than what you imagined on New Year's Eve 2019.

SO WHAT. 🙄

You still have opportunities waiting for you.

These next 6 months are going to happen anyway, so why not make some big personal upgrades in your life?

Think of where you want to be on 1/1/2021 in these 5 areas of your life:

- ✿ personal health & fitness
- ✿ key relationships
- ✿ career-related skills
- ✿ financial discipline
- ✿ education & learning

Write down a specific goal for each category that would inspire you to improve over the next 6 months. (many studies show that when you physically write down specific goals you are much more likely to achieve them)

****MOST PEOPLE** will spend the next 6 months watching the news, arguing on social media, and worrying about things they cannot control. What a great opportunity to push away distractions and negativity and instead, make some positive changes in your life.

We would love to help you stop procrastinating taking that next step to designing your future. Click the blue button below to schedule a conversation with us.
