

# THINK OF YOUR INCOME AS A TABLE

**ONLY ONE LEG TO SUPPORT THE TABLE**

**IF ONE LEG BREAKS, THE TABLE COLLAPSES**

**MULTIPLE LEGS TO SUPPORT THE TABLE**

**IF ONE LEG BREAKS, THE TABLE WILL WOBBLE BUT REMAIN STANDING**

I bet you could use more legs!!

Table legs, of course. Too often I see people earning a very high income, yet they rely solely on their business or job to produce that high income.

That's not going to cut it long-term. That's gambling.

Nobody feels steady while eating on a wobbly table.

Building multiple streams of income is no longer a luxury, it has become a necessity. If the last year has taught us anything, it is that relying on only one source of income is dangerous. Unfortunately for most people, their only source of income is from their job, which can be a risky way to live.

Add some security and stability to your financial life by increasing the number of long-term investments that give you passive, predictable and steady income for life!
