

December 8, 2020

One of the greatest sources of personal inspiration is **PROGRESS**. You need to see progress to create momentum, even if the progress is small. Progress brings happiness.

If you lose a few pounds or you save some money into your bank account, it feels good. But, to see progress and capture that inspiration going forward, you must **MEASURE PROGRESS**.

Karl Pearson famously said, "That which is measured improves. That which is measured and reported improves exponentially."

Our Pacific Capital team is highly skilled and trained at helping you create goals, set a strategy to reach your goals, and measure your progress along the way.

If you want to schedule some time to talk with your team about your goals as we head into the new year, click the blue button below and pick a time that works!

P.S. Unhappiness is simply the lack of progress towards your preset goals. Taking action towards your goals and measuring progress is the cure all.

P.P.S. Thank you again for your support in buying my new book "[Stress Free Money](#)" (available on Amazon). 91 of you have already left a book review on Amazon. If you already read the book, will you please go to amazon and leave a review? THANK YOU!! Also, the AUDIO BOOK version came out this month as well (on amazon and audible.com).

Sincerely,

Certified Financial Fiduciary®
