

June 10, 2021

Today's report shows inflation soared 5% in May, the fastest year-over-year pace since 2008. Core inflation rate just had the highest jump in almost 30 years. Airline fares are up over 24 percent, clothing up 5.6 percent and gas prices are at a 7-year high.

As we've been saying for a while now, inflation is a "silent wealth killer." It sneaks up on you (and your bank money to steal away the value of what you've saved).

DO NOT SAVE MONEY WHILE THEY PRINT MONEY.

Instead, **be an investor.** Make your money work for you. Your money needs to grow in value or this rising inflation will continue to erode your savings.
