

July 4th, 2023

Hello ,

I love America.

To me, America means freedom. It stands for individual liberty, variety, religious freedom, business opportunities, a melting pot of people from all backgrounds who seek to blaze their own trail to a better future. No country is perfect and there will always be some division. We are going through some tough times right now. But I still love this country. We have much to be grateful for, especially our freedom and opportunities.

We have so many clients who immigrated from other places and who have such a deep love and respect for America. Their stories inspire me. They always seem to have MORE appreciation than most of us who were born here.

I hope you have a great July 4th holiday. In our family discussions about America, I always share stories and personal experiences of my two years in the late 90s living in the former Soviet Union. The friends I made over there lived through such horrible things, and I learned as a young man to be thankful for the many freedoms that make America unique. With all the negativity in the news and social media, I believe (now more than ever) our young people need to learn about the great parts of our country and why we are fortunate to be Americans. As an elected government official, I take the sacred oath of service in our community and get to participate in many events that celebrate our nation.

We need to keep the optimism and hope that our future will be bigger and better than our past. The best is yet to come. As an investor, that belief is required. You only invest money with the hope and expectation of growth in the future! You cannot believe the future is doomed while investing. There are many opportunities ahead.

There will be bumps in the road (inflation, tax increases, rising interest rates, recessions), but we can help you navigate through those. [Click here](#) to schedule a call.

P.S. [Here are the top 65](#) July 4th recipes! I personally think #14, #19, and #62 look the delicious!! Have a great week-

Sincerely,
